The performance of the Sub-Fund is not referenced to pre-determined benchmarks.

Market Overview

For the full year of 2019, offshore china equities (as measured by MSCI China Index) rose 20.4% on expectation a phase one trade deal will be signed by the US and China on Jan. 15th 2019 and improving China macro data. Ten major sectors of the MSCI China index posted positive return for the year and only energy posted negative return. Energy was the worst performing sectors in 2019, which fell 4.7% during the year. Consumer discretionary was the best performing sector, which rose 51.4% in 2019. China ADRs (which listed in US stock markets) posted strong performance in 2019. The bellwether stocks, such as Alibaba, Netease, and JD.com, rose more than 30% for the year.

On the macro front, recent release of the China macroeconomic data showed tentative signs of a cyclical recovery of the economy. December NBS manufacturing and non-manufacturing PMI were above 50-level and back to expansion territory. In addition, industrial production and retail sales both posted better than expected number in December. The better than expected December macro readings together with the de-escalating trade friction with the US could trigger a short term cyclical recovery.

After 20 months of negotiation, the US and China were likely to conclude a partial trade deal on Jan. 15th 2019. We expected the market sentiment would improve further after the partial trade deal materialized and would help support the market at the current level.

¹ Date of commencement of operations is 7 March 2016

REPORT OF THE MANAGER (Continued)

Outlook

Looking into 2020, we remain positive on the offshore china equities due to their undemanding valuation and solid growth outlook. We continue to focus on those structural growth plays, such as 1) eCommerce, 2) Cloud computing, 3) Property management, 4) Education and 5) 5G and believe those companies will create value for long term investors.

**INDEPENDENT AUDITOR'S REPORT
TO THE UNITHOLDERS OF DA CHENG OVERSEAS CHINA CONCEPT FUND
(A SUB-FUND OF DCI INVESTMENT TRUST ESTABLISHED IN HONG KONG)**

Report on the Audit of the Financial Statements

Opinion

What we have audited

The financial statements of Da Cheng Overseas China Concept Fund (the “Sub-Fund”), a sub-fund of DCI Investment Trust, set out on pages 8 to 26, which comprise:

- the statement of financial position as at 31 December 2019;
- the statement of comprehensive income for the year then ended;
- the statement of changes in net assets attributable to unitholders for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Sub-Fund as at 31 December 2019, and of its financial transactions and cash flows for the year then ended in accordance with International Financial Reporting Standards (“IFRSs”).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (“ISAs”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Sub-Fund in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (the “IESBA Code”), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

Other Information

The Trustee and the Manager (the “Management”) of the Sub-Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor’s report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**INDEPENDENT AUDITOR'S REPORT
TO THE UNITHOLDERS OF DA CHENG OVERSEAS CHINA CONCEPT FUND
(A SUB-FUND OF DCI INVESTMENT TRUST ESTABLISHED IN HONG KONG)**

Responsibilities of the Management for the Financial Statements

The Management of the Sub-Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with IFRSs, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Sub-Fund is responsible for assessing the Sub-Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Sub-Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Sub-Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 30 December 2011, as amended ("Trust Deed") and Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Sub-Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sub-Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

**INDEPENDENT AUDITOR'S REPORT
TO THE UNITHOLDERS OF DA CHENG OVERSEAS CHINA CONCEPT FUND
(A SUB-FUND OF DCI INVESTMENT TRUST ESTABLISHED IN HONG KONG)**

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Sub-Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Sub-Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Matters under the Relevant Disclosure Provisions of the Trust Deed and Appendix E of the SFC Code

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and Appendix E of the SFC Code.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2019**

1 General information

DCI Investment Trust (the “Trust”) is an open-ended unit trust established as an umbrella fund under the laws of Hong Kong by a trust deed dated 30 December 2011, as amended (the “Trust Deed”), between Da Cheng International Asset Management Company Limited as Manager (the “Manager”) and BOCI-Prudential Trustee Limited as Trustee (the “Trustee”). As at 31 December 2019, the Trust has six sub-funds, Da Cheng Overseas China Concept Fund (the “Sub-Fund”), Da Cheng China Balanced Fund, Da Cheng China RMB Fixed Income Fund, Da Cheng Money Market Fund, Da Cheng Total Return Bond Fund and Da Cheng Hong Kong Dollar Money Market Fund (collectively, the Sub-Funds). The date of commencement of operations of the Sub-Fund was 7 March 2016.

The Trust and the Sub-Fund are authorised by the Securities and Futures Commission of Hong Kong (the “SFC”) under Section 104(1) of the Hong Kong Securities and Futures Ordinance and is required to comply with the Code on Unit Trusts and Mutual Funds established by the SFC (the “SFC Code”).

The investment objective of the Sub-Fund is to achieve its objective by primarily investing in China Concept Stocks, which are listed on stock exchanges outside of the People’s Republic of China (“PRC”). The Sub-Fund will primarily invest directly in China Concept Stocks, which are equities issued by:

- (i) companies domiciled in the PRC, Hong Kong or Macau but listed on a stock exchange outside of the PRC; and
- (ii) companies domiciled, and listed on a stock exchange, outside of the PRC, whose:
 - (a) operations or assets are based mainly in the PRC, Hong Kong and/or Macau;
 - (b) management or ownership is mainly controlled by an entity that is established or incorporated in the PRC, Hong Kong or Macau; or
 - (c) revenues or profits are mainly derived from the PRC, Hong Kong and/or Macau,

including but not limited to H-Shares, S-Chips and P-Chips.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to the years presented, unless otherwise stated.

2.1 Basis of preparation

The financial statements of the Sub-Fund have been prepared in accordance with International Financial Reporting Standards (“IFRS”). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and liabilities at fair value through profit or loss.

**DA CHENG OVERSEAS CHINA CONCEPT FUND
(A SUB-FUND OF DCI INVESTMENT TRUST ESTABLISHED IN HONG KONG)**

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2019**

2 Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

Standards and amendments to existing standards effective 1 January 2019

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 January 2019 that have a material effect on the financial statements of the Sub-Fund.

New standards, amendments and interpretations effective after 1 January 2019 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2019, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Sub-Fund.

2.2 Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Sub-Fund operates (the “functional currency”). The performance of the Sub-Fund is measured and reported to the unitholders in Hong Kong Dollar (“HKD”). The Manager considers HKD as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions. The financial statements are presented in HKD, which is the Sub-Fund’s functional and presentation currency.

(ii) Transactions and balances

Foreign exchange gains and losses arising from translation are included in the statement of comprehensive income.

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the reporting date.

Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the statement of comprehensive income within “net gains/(losses) on investments”.

Foreign exchange gains and losses relating to cash and cash equivalents is presented in the statement of comprehensive income within “net foreign exchange losses”.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2019**

2 Summary of significant accounting policies (Continued)

2.3 Investments

(i) Classification

The Sub-Fund classifies its investments based on both the Sub-Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Sub-Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Sub-Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. Consequently, all investments are measured at fair value through profit or loss.

The Sub-Fund's policy requires the Manager and the Directors to evaluate the information about these financial assets and liabilities on a fair value basis together with other related financial information.

(ii) Recognition, derecognition and measurement

Regular purchases and sales of investments are recognised on the trade date – the date on which the Sub-Fund commits to purchase or sell the investment. Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Transaction costs are expensed as incurred in the statement of comprehensive income.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Sub-Fund has transferred substantially all risks and rewards of ownership.

Subsequent to initial recognition, all financial assets at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the "financial assets at fair value through profit or loss" category are presented in the statement of comprehensive income within "net gains/(losses) on investments" in the period in which they arise.

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income within dividend income when the Sub-Fund's right to receive payments is established.

(iii) Fair value estimation

The fair value of financial instruments traded in active markets (such as publicly traded derivatives and trading securities) is based on quoted market prices at the closing of trading on the reporting date. The quoted market price used for financial assets held by the Sub-Fund is the last traded price.

(iv) Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(A SUB-FUND OF DCI INVESTMENT TRUST ESTABLISHED IN HONG KONG)**

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2019**

2 Summary of significant accounting policies (Continued)

2.4 Cash and cash equivalents

Cash and cash equivalents include cash at banks, deposits held with banks with original maturities of three months or less.

2.5 Interest income

Interest is recognised on a time-proportionate basis using the effective interest method. Interest income includes interest from cash and cash equivalents.

The effective interest method is a method of calculating the amortised cost of an interest bearing asset and of allocating the interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts throughout the expected life of the financial instrument, or a shorter period where appropriate, to the net carrying amount of the financial instrument. When calculating the effective interest rate, the Sub-Fund estimates cash flows considering all contractual terms of the financial instrument (for example, prepayment options) but does not consider future credit losses. The calculation includes all fees and points received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

2.6 Accrued expenses

Accrued expenses are recognised initially at fair value and subsequently stated at amortised cost using the effective interest method.

2.7 Dividend income

Dividend income is recognised when the right to receive payment is established.

2.8 Distributions to unitholders

Distributions to unitholders are recognised in the statement of changes in net assets attributable to unitholders when they are approved by the Manager.

2.9 Redeemable units

The Sub-Fund issued one class of redeemable units in two different currencies as at year end and the redeemable units do not have identical features. The Sub-Fund classified its puttable instruments as financial liabilities. Units are issued and redeemed at the holder's option at prices based on the Sub-Fund's net asset value per unit of the respective class and currency at the time of issue or redemption. The Sub-Fund's net asset value per unit of the respective class and currency is calculated by dividing the net assets attributable to unitholders of the respective class and currency with the total number of outstanding units of the respective class and currency.

In accordance with the prospectus of the Sub-Fund, investment positions are valued based on the last traded market price for the purpose of determining the net asset value per unit for creations and redemptions of the Sub-Fund.

FOR THE YEAR ENDED 31 DECEMBER 2019**

2 Summary of significant accounting policies (Continued)

2.10 Transaction costs

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include the fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs are expensed as incurred in the statement of comprehensive income.

2.11 Withholding taxes

The Sub-Fund currently incurs withholding taxes imposed by the People's Republic of China on dividend income. Such income is recorded gross of withholding taxes in the statement of comprehensive income. Withholding taxes are included as taxation in the statement of comprehensive income.

3 Financial risk management

The Sub-Fund is exposed to a variety of risks including but not limited to market price risk, cash flow and fair value interest rate risk, credit and custody risk, liquidity risk and currency risk which are associated with the markets in which the Sub-Fund invests.

The following is a summary of the main risks and risk management policies.

3.1 Market price risk

Market price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual instrument or factors affecting all instruments in the market. All investments present a risk of loss of capital.

The Sub-Fund's market price risk on equities is managed through diversification of the investment portfolio ratios by exposures to different industries. There is no exposure to individual investments representing over 10% of the Sub-Fund's net asset value at 31 December 2019 and 2018.

The following analysis summarises the sensitivity of the Sub-Fund's net assets to price movements of financial instruments held at the reporting date. The analysis is based on the assumptions that the MSCI China Index increased/decreased by 15% (2018: 15%) with all other variables held constant, and that the fair value of the Sub-Fund's portfolio of equity securities and futures moved according to their historical correlation with the index. This would have increased/decreased the net assets of the Sub-Fund by approximately HKD42,568,611 (2018: HKD45,803,051). This represents management's best estimate of a reasonable possible shift in the MSCI China Index, having regard to the historical volatility of the index.

The Trustee and the Manager of the Sub-Fund do not manage the Sub-Fund's investment strategy to track any index or external benchmark. The sensitivity analysis presented is based upon the portfolio composition at the reporting date and the historical correlation of the securities comprising the portfolio to the index. The composition of the Sub-Fund's investment portfolio and the correlation thereof to the above index are expected to change over time. The sensitivity analysis prepared as of the reporting date is not necessarily indicative of the effect on the Sub-Fund's net assets of future movements in the level of the above-mentioned index.

3 Financial risk management (Continued)

3.2 Interest rate risk

Interest rate risk is the risk that the future cash flow and the value of a financial instrument will fluctuate due to changes in market interest rates. As the Sub-Fund has no significant interest-bearing financial assets apart from cash and cash equivalents, the Sub-Fund's income and operating cash flow are substantially independent of changes in market interest rates. All cash and cash equivalents are short-term with maturity less than three months. Receivables and payables are interest-free and have settlement date less than 1 year.

As at 31 December 2019, the Sub-Fund had a bank balance of HKD1,173,613 (2018: HKD1,526,726). If interest rates had been 50 basis points higher or lower with all other variables held constant, net assets attributable to unitholders would have been HKD5,868 (2018: HKD7,634) higher or lower as at 31 December 2019.

3.3 Currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The Sub-Fund is not exposed to currency risk arising from balances and transactions in foreign currencies as its assets and liabilities are mainly denominated in HKD, the Sub-Fund's functional and presentation currency. The Sub-Fund has financial assets denominated in United States dollar. The Sub-Fund does not consider the currency risk to be significant since the Hong Kong dollar is pegged to the United States dollar. Accordingly, the Management considers that it is not necessary to present a sensitivity analysis of currency risk.

3.4 Credit and counterparty risk

Credit and counterparty risk is the risk that an issuer or counterparty will be unable or unwilling to meet a commitment that it has entered into with the Sub-Fund.

All transactions in listed securities are settled or paid for upon delivery using approved and reputable brokers. The risk of default is considered minimal, as delivery of securities sold is made only when the custodian has received payment. Payment is made on a purchase when the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

The Sub-Fund is exposed to credit and counterparty risk on cash and cash equivalents.

3.4 Credit and counterparty risk (Continued)

The table below summarises the net exposure to the Sub-Fund's counterparty as at 31 December together with its credit rating.

At 31 December 2019	HKD	Credit rating	Source of credit rating
Investments			
Bank of China (Hong Kong) Limited	269,907,981	Aa3	Moody's
Cash and cash equivalents			
Bank of China (Hong Kong) Limited	1,173,613	Aa3	Moody's
At 31 December 2018			
Investments			
Bank of China (Hong Kong) Limited	270,307,633	Aa3	Moody's
Cash and cash equivalents			
Bank of China (Hong Kong) Limited	1,526,726	Aa3	Moody's

The Sub-Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward looking information in determining any expected credit loss. At 31 December 2019 and 31 December 2018, all amount receivable on subscription of units, amount due from brokers and cash and cash equivalents are held with counterparties with a credit rating of Aa3 and are due to be settled within 1 month. Management consider the probability of default to be close to zero as the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Sub-Fund.

The maximum exposure to credit risk as at 31 December 2019 and 2018 is the carrying amount of the financial assets as shown on the statement of financial position excluding investments.

The Manager considers that none of these assets are impaired nor past due (2018: Nil).

3.5 Liquidity risk

Liquidity risk is the risk that the Sub-Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Sub-Fund is exposed to daily redemptions of units in the Sub-Fund. The Sub-Fund invests the majority of its assets in securities that are traded in an active market which can be readily disposed of.

3.5 Liquidity risk (Continued)

The table below analyses the Sub-Fund's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

	2019 Less than 3 months HKD	2018 Less than 3 months HKD
Amount due to brokers	-	7,749,123
Management fee payable	348,048	362,819

Accrued expenses and other payables	186,043	185,156
Amount payable on redemption of units	2,481,932	450,478
Net assets attributable to unitholders	268,321,534	272,797,222
	<u>271,373,724</u>	<u>281,581,080</u>

Units are redeemed on demand at the unitholder's option.

As at 31 December 2019, the total assets of the Sub-Fund amounted to HKD271,373,724 (2018: HKD281,581,080). The Sub-Fund manages its liquidity risk by investing in securities that it expects to be able to liquidate within 7 days or less.

3.6 Fair value estimation

The Sub-Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

3.6 Fair value estimation (Continued)

The determination of what constitutes “observable” requires significant judgment by the Sub-Fund. The Sub-Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following tables analyse within the fair value hierarchy the Sub-Fund’s investments at 31 December 2019 and 2018:

As at 31 December 2019	Level 1	Level 2	Level 3	Total
Assets	HKD	HKD	HKD	HKD
Investments				
- American Depositary Receipts	68,305,898	-	-	68,305,898
- Listed equities – HK	194,901,784	-	-	194,901,784
- Listed equities – US	6,700,299	-	-	6,700,299
Total	269,907,981	-	-	269,907,981
As at 31 December 2018	Level 1	Level 2	Level 3	Total
Assets	HKD	HKD	HKD	HKD
Investments

Total	270,307,633	-	-	270,307,633

The investments classified in level 1 were fair valued based on quoted market price in an active market.

Investments that trade in markets that are not considered to be active and are priced by the market maker supported by observable inputs are classified within level 2.

Investments that trade in markets that are not considered to be active and are priced by the market maker based on unobservable inputs are classified within level 3.

The Sub-Fund did not invest in any level 2 or level 3 investments during the year ended 31 December 2019 and 2018.

There was no transfers between levels during the year ended 31 December 2019 (2018: Nil).

The carrying amount of dividends receivable, amount receivable on subscription of units, amount due from brokers, other assets, cash and cash equivalents, management fee payable, trustee fee payable, accrued expenses and other payables, amount payable on redemption of units, amount due to brokers and net assets attributable to unitholders approximated their fair values and are presented in the statement of financial position. There are no financial assets and financial liabilities not carried at fair value but for which the fair value is disclosed.

3.7 Capital risk management

The Sub-Fund's capital is represented by the net assets attributable to unitholders. The Sub-Fund strives to invest the subscriptions in investments that meet the Sub-Fund's investment objectives while maintaining sufficient liquidity to meet unitholder redemptions.

The Management may:

- Redeem and issue new units in accordance with the constitutive documents of the Sub-Fund; and
- Exercise discretion when determining the amount of distributions of the Sub-Fund to the unitholders.

4 Financial instruments by category

Financial assets

Apart from investments which are classified as financial assets at fair value through profit or loss, all other financial assets as disclosed in the statement of financial position, including dividends receivable, amount receivable on subscription of units, amount due from brokers, other assets and cash and cash equivalents, are categorized as financial assets measured at amortized cost.

Financial liabilities

All financial liabilities as disclosed in the statement of financial position, including management fee payable, trustee fee payable, amount payable on redemption of units, amount due to brokers, accrued expenses and other payables and net assets attributable to unitholders, are categorized as financial liabilities measured at amortized cost.

6 Number of units in issue and net assets attributable to unitholders per unit

Net assets attributable to unitholders are carried at the redemption amount that would be payable if the unitholder exercised the right to redeem the units in the Sub-Fund.

Class A Units are available for sale to the retail public. Class I Units are offered to institutional investors. As at 31 December 2019 and 2018, the Sub-Fund had HKD Class A and USD Class A units in issue.

The movements of the redeemable units are as follows:

	2019		2018	
	HKD Class A	USD Class A	HKD Class A	USD Class A
Number of units in issue at the beginning of the year	12,189,917	1,517,113	6,924,210	705,423
Units issued	797,539	144,296	22,225,730	2,889,896
Units redeemed	(3,823,510)	(514,982)	(16,960,023)	(2,078,206)
	<u>9,163,946</u>	<u>1,146,427</u>	<u>12,189,917</u>	<u>1,517,113</u>

The following table details the net asset value per unit of each class of units at the reporting date:

	2019	2019
	HKD	USD
	Class A	Class A
Net assets attributable to unitholders per unit (Dealing NAV) at 31 December 2019	<u>14.86</u>	<u>14.80</u>
	2018	2018
	HKD	USD
	Class A	Class A
Net assets attributable to unitholders per unit (Dealing NAV) at 31 December 2018	<u>11.39</u>	<u>11.28</u>

At the discretion of the Manager, units subscribed may be subject to a subscription charge of up to 5% of the value of any subscription.

In accordance with the Sub-Fund's Prospectus, the establishment costs of the Sub-Fund will be amortised over the first three years. However, the accounting policy of the Sub-Fund for the purpose of financial statements preparation in compliance with IFRS is to expense establishment costs in the statement of comprehensive income as incurred. The differences between expensing the establishment costs as incurred in accordance with IFRS and capitalisation and amortisation of the establishment costs indicated in the Sub-Fund's Prospectus resulted in adjustments in the net asset value. The above difference between the dealing NAV and the accounting NAV results an adjustment of HKDnil (2018: Nil) and HKDnil (2018: HKD179,627) recognised in the statement of financial position and the statement of comprehensive income in 2019 respectively.

8 Taxation

Hong Kong profits tax

No provision for Hong Kong profits tax has been made for the Sub-Fund as it was authorised as collective investment schemes under Section 104 of the Hong Kong Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Hong Kong Inland Revenue Ordinance.

PRC withholding tax

The Sub-Fund invests in H-shares of companies in China securities listed on the Hong Kong stock exchange. Under the PRC Corporate Income Tax Law, the Sub-Fund may be liable to pay PRC tax on the capital gains realised in the trading of these shares. However, no provision was or has been made for PRC tax from such gains in the Sub-Fund's financial statements as the directors believe that the Sub-Fund can sustain a position that the existing tax regulations and enforcement thereof of such PRC tax on capital gains arising from the transfers of such shares are not yet certain or clarified.

The Sub-Fund is subject to withholding tax on certain dividend income earned from its investment securities. For the year ended 31 December 2019, the total withholding tax amounted to HKD129,007 (2018: HKD445,521).

9 Soft commission arrangements

The Manager confirms that there has been no soft commission arrangement existing during the year ended 31 December 2019 and 2018 in relation to directing transactions of the Sub-Fund through a broker or dealer.

10 Approval of financial statements

The financial statements were approved by the Trustee and the Manager on 27 April 2020.
