PERFORMANCE SINCE INCEPTION^{1,2,6} (Class M)

1. Source: Bloomberg, DCI, all information as at 30 April 2021.

2. The performance is calculated based on the NAV per Unit of each class. NAV to NAV with income (if any) reinvested.

3. Calculated upon the credit ratings in relation to the individual securities held by the Fund provided by Bloomberg, Date: as at 30 April 2021.

4. The average credit rating is determined by assigning a sequential integer to all credit ratings from AAA (highest) to D (lowest), taking a simple, asset-weighted average of debt holdings by market value and rounding to the nearest rating. The rating, which may be based on bond ratings from different agencies, is provided to indicate the average credit rating of the portfolio's underlying investments without taking into account derivative positions and unrated securities.

5. Portfolio average yield represents the return of the bonds held to maturity, the calculation takes into account the interest income, the ratio between capital gain and loss and the actual price of the bond. Positive distribution yield does not imply a positive return.
